

SANDRA JORDAN™

ABOUT THE COMPANY

The Sandra Jordan Collection is truly a company with a heart and soul. While the Collection's pieces reflect the distinctive style and artistic vision of the company's founder, her imprint reaches far beyond aesthetics.

Sandra Jordan is committed to fostering the tradition of craftsmanship that she witnessed in her native Peru as a child. This dedication has manifold benefits, for both her employees in Peru, who are given the opportunity to learn and hone vital skills that help them support their families, as well as her customers, who have the rare chance to enjoy the personal touch and luxury of handcrafted pieces.

At its core, the Sandra Jordan Collection is about community: the community that Sandra supports through job creation and training in Peru and the sense of community and tradition that Sandra seeks to foster with her pieces. When you purchase a product from the Sandra Jordan Collection, you are investing not only in an heirloom for future generations, but in a heritage of self-sustenance and pride for the workers who created it.
